BRITISH NAVY CAPTURES NAZI HELL-SHIP "DRAKE" STYLE

CUTLASSES FLASHED when British sailors from the destroyer Cossack boarded the German hell-ship Altmark 20 yards from the Norwegian coast and in a swift clash killed seven German sailors, wounded three and released 299 British officers and

men. The dramatic moment is caught here by Star Weekly Staff Artist W. Blackwood Law. One of the rescued prisoners was W. E. McMinn, son of Mr. and Mrs. McMinn, Toronto. During the fight the British sailors were cheered on by famished prisoners

"I SEE YOU DRIVE A *Chrysler*"

"Yes, Mr. Andrews—and I believe you will find it just as thrilling on the highway, as your airliner was in the sky."

An Invitation

Your nearest Chrysler dealer would like you to experience the thrill of a Chrysler "Floating Ride". A telephone call will place one of these most modern of motor cars at your disposal for a trial drive at your convenience.

BRITISH LIFEBOATMEN PRAISED FOR SAVING THOUSANDS

TWO LIFEBOATMEN WERE WASHED OVERBOARD and lost their lives while rescuing the crew of this Belgian steamship

"Charlotte" which ran aground on the northeast coast of Britain during a violent storm. Six of the steamer's crew also perished

FOUR OF THE SURVIVORS from the wrecked Belgian steamship pictured above, enjoyed breakfast after warm baths and an issue of dry clothing

NOT ALWAYS FISHERS OF MEN, when not braving stormy seas they return to their occupation of netting fish, exposed to Nazi bombers

FIFTEEN THOUSAND LIVES have been saved since the war began, by lifeboat crews stationed along Britain's coast. Braving foul weather, high seas and bitter cold, the courageous boatmen have gone to the rescue of the victims of Nazi frightfulness. High tribute was recently paid them by the Admiralty

THE LOOKOUT, having spent his life along the coast, knows the sea like the palm of his hand

INSIDE ONE OF CANADA'S COASTAL PATROL BOMBERS

ON SOME SHIPS a cook is chosen from the crew, on others, each flier takes his turn at the range

ONE OF THE WORLD'S BEST flying boats for coast reconnaissance work, the Supermarine Stranraers are generally employed on the Pacific coast

CANADIAN BIRDMEN MUST HAVE more than bird seed when engaged on long coastal patrols which sometimes keep them in the air for 14 hours at a stretch. Space is at a premium aboard the big Stranraers but a place is made for a dinky kitchen where hot food and drink are prepared over two primus burners with an oven. The "cook" is clean and tidy.

WHILE IN FLIGHT the crew of a Stranraer are seated in a cabin which resembles a cross between a pullman and the interior of a submarine

ALTHOUGH BUNDLED UP like a teddy bear, it is so cold in the ship the navigator has an oil heater

WHITE-CLAD SOLDIERS FIGHT ON SNOW-WHITE FRONTS

MILLIONS OF MEN, armed to the teeth, stand in readiness in the Maginot and Siegfried Lines, but to date most of the action has

been brief, vicious raiding-party clashes. Here is a French hand-grenade patrol exercising over the snowy country behind the line

FINLAND'S COURAGEOUS DEFENCE against Russia's armies will find permanent record in the annals of warfare. Groups of ghostly,

white-clad ski-troops constantly harassed the invaders in the north, while powerful "Mannerheim line" withstood attacks in the south

COLDEST WINTER in years on the western front has brought much snow, and French "poilus" are wearing white jackets in their raids

across "no-man's-land." In this photo a party is seen in training exercises in the barbed-wire sections just back of the front

PERSONALITY PLUS IN THESE NEW SPRING MODELS

1940 VERSION of perennial turban, consisting of swathed silk scarf, caught in bow at nape of neck and accented with diamond clip. Turban is a must in every wardrobe this season

FRESH AS A DAISY—and why not, in this off-the-face white felt, with myriad cut-out daisies forming a flattering halo. Crown is of white felt; military note in red and blue band

ST. VALENTINE'S INFLUENCE is carried over in this bright red heart-shaped felt cartwheel for smart spring wear. It provides just the right accent with this year's navy blue

FOR MORE EXOTIC MOMENTS, this Bali-influenced turban of antique batik in barbaric colors, swirled to knot on top, with hand-carved wooden goddess in front. Oriental accessories

MEN TURN TABLES, KNIT FOR WOMEN IN SERVICE

MEN OF MINSTER have taken up needles on behalf of Britain's women enrolled in services. Women prefer to knit for Tommies, it seems, so male villagers turned local pub into hive of industry

PERCHED ON SANDBAGS, smiling trio of auxiliary fire service members knit between fires. They are knitting not for themselves but for members of the B.E.F. in France

BUT THE LADIES still have to teach the men how to "drop one, purl two." Knitting has become a favorite pastime in England and British Red Cross can scarcely supply the demand for wool

Can you stand *FLATTERY?*

SOMETHING'S apt to happen to your state of mind when you come to own a big, luxurious Mercury 8. If you're proud to have that long, low, streamlined beauty standing at your door, nobody will blame you. Congratulations are in order!

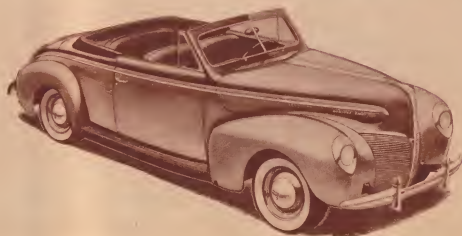

You have a right to feel set up when you step into the roomy hospitality of your own Mercury . . . when you're proud to have that long, low, streamlined beauty standing at your door, nobody will blame you. Congratulations are in order!

And when you figure the money your Mercury will save (owners report 20 to 25 miles per gallon, for example!), you can flatter yourself that you know an outstanding buy when you see one! Like to look—and drive? See any Ford-Mercury-Zephyr dealer.

Mercury 8

EVEN THE MERCURY'S STYLING IS DIFFERENT! Blue and silver tones, in the smartest instrumental panel you've seen, key the Mercury's interior styling. Tailored seats are unusually wide—thanks to wide-flaring body lines. There's room for six big persons. New Controlled Ventilation climaxes your comfort with air circulation free of annoying drafts.

THIS CAR WON'T STAY IDLE! An ingenious automatic top that raises or lowers at the touch of a knob makes the Mercury Club Convertible an all-weather, all-season favourite. Big enough for five, this sleek beauty has the unusual advantage of a full-width rear seat protected by the top. Choice of two handsome fabric tops.

MERCURY CARS ARE MADE IN CANADA

38,000 Canadian workers and dependants benefit because Mercury cars are made in this country. When You Buy a Mercury More of Your Money Stays in Canada.

CANADIANS IN LINCOLN LEADS

CANADA'S RAYMOND MASSEY brings to screen his great portrayal of "Abe Lincoln in Illinois." Brother of Canada's high commissioner in London, he began his stage career at Toronto's Hart House; now he rates two pages in British stage year book

GENE LOCKHART, born in London, Ont., plays part of Stephen Douglas, political opponent of Lincoln. Lockhart wrote lyrics for Ernest Seitz' "World Is Waiting for the Sunrise"; he is turning over all his song royalties to British Red Cross

Do As Your Dentist Does— when he cleans your teeth

Only the powder part of a dentifrice really cleans, so a dentifrice that is ALL POWDER just naturally cleans best! Dr. Lyon's Tooth Powder is all powder—100% cleansing properties, more than twice the cleansing properties of many tooth pastes.

Free from all acids, grit and pumice, Dr. Lyon's cleans and polishes the teeth in a harmless, practical way; they simply can't stay dull, dingy and film-coated when Dr. Lyon's is

used. And as a neutralizer in acid mouth conditions, Dr. Lyon's is just as effective as Milk of Magnesia. Brush your teeth with Dr. Lyon's regularly, consult your dentist periodically, eat as you should—and you will be doing everything you possibly can do to protect your teeth.

In the same size and price class, Dr. Lyon's outlasts tooth pastes two to one—lasts twice as long, so it's more economical. All drugstores.

FOR THE "TEEN" AGES!

Many doctors advise Scott's Emulsion be given as a tonic to adolescent boys and girls. It's the better—more palatable—way to take cod liver oil. Even children love it! And, Scott's Emulsion is a very economical way to obtain the important vitamins A and D.

1—Scott's Emulsion has all the values of cod liver oil and is four times easier to digest.

2—Easily Digested—The exclusive method of emulsifying the oil permits digestion to start in the stomach whereas digestion of plain cod liver oil does not begin until the oil passes into the intestines.

3—Easy to take—Yes, Scott's Emulsion has a pleasant taste. Easy to take and retain by children and adults.

4—Economical—Scott's Emulsion is an economical way to obtain Vitamins A and D so necessary to strong bones and sound teeth. Try a bottle, today.

SCOTT'S EMULSION

COSSACK UNLOCKS ALTMARK'S "BLACK HOLE"

THIS IS THE BRITISH DESTROYER Cossack, which drove aground the German prison ship Altmark, on the Norwegian coast. The photo below, which was taken from the Graf Spee, shows how the Nazi hell-ship was camouflaged at bow and stern to make her appear smaller. When British sailors had subdued the German crew with pistols and cutlasses they rescued 299 British prisoners locked under hatches

JOSSING FJORD, on the coast of Norway, where the Cossack manoeuvred the Altmark aground. After fight, three Norwegian ships guarded the five-mile-long fjord and British warships patrolled outside territorial waters. Diplomatic battle between Nazis, England and Norway that followed fizzled out

FIGHTING THE FIGHTIN'EST GAME FISH

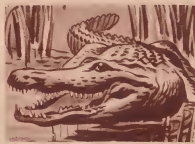

WITH THEIR LIMIT CATCH of three steelheads apiece, Sandy Balcom (left) and Ed. Sierer of Seattle face a perilous crossing over slippery rocks in the swift current of Queets river in Washington state

AT THE END OF A LONG FIGHT when the exhausted steelhead has been coaxed into shallow water, the angler's partner seizes the fish and tosses it to the shore where it is killed with a heavy stick

THE STEELHEAD fish is a species of trout which leaves the salt water to spawn in fresh water in midwinter. Its weight is 10 to 16 pounds. To land one inside half an hour after a strike taxes the efforts of a well-skilled angler with a partner, before it is steered into shallow water. Some steelheads are found in B.C. rivers like the Columbia and the Fraser

SHAKESPEARE'S GREAT PLAYS STILL APPEAL

REVIVAL OF INTEREST in Shakespeare is expected to result from Maurice Evans' presentation in Toronto this week of "Hamlet" in its entirety (four hours). "Hamlet" was first played in America 180 years ago at Philadelphia in 1759, on a hot July night

AN ENGLISH ACTOR, Maurice Evans first appeared in America as Romeo to Katharine Cornell's Juliet, later as King Richard II, Falstaff, now Hamlet

AT STRATFORD-ON-AVON, Shakespeare's home town, souvenir industry is big business. William Shakespeare wrote in days of Elizabeth, to please himself and his audiences, and succeeded in pleasing audiences from that day to this, in almost every country

BRITAIN RUSHES TROOPS TO NEAR EAST

AFGHANISTAN comes into the news again as reports come that Russia is concentrating troops on her borders. This wild, barren, mountainous region is a buffer state between Russia and India, and for 100 years it has been a constant source of friction. Almost impassable is India's rugged northern frontier, pierced by passes guarded by British forts such as in Cahot, above. Afghan leaders are pro-British

KEENLY PATRIOTIC ARE the Afghans, and they have great respect for the old men of the community. Their opinions are asked on important decisions

BABY BOOKLET EXPLAINS EARLY FEEDING

Recent clinical and laboratory tests show homogenized foods digest much faster than strained foods.

Many doctors quick to appreciate the health benefits of these homogenized solid foods are recommending they be regularly included in the diets of three-month-old babies, and in some instances as young as six weeks, as protection against nutritional anemia.

The success of this early feeding is made possible by homogenization—a new process which reduces vegetables and fruits to so fine and smooth a form that babies actually receive more nourishment with less digestive work.

These facts and other valuable information concerning homogenized baby foods are contained in the 23-page, illustrated booklet LIBBY'S, Chatham, Ontario, are offering free on written request. Up-to-the-minute mothers are invited to write and ask for a copy of "Your Baby's First Vegetables and Fruits." Consult your doctor about feeding your baby homogenized vegetables and fruits. Homogenization is an exclusive LIBBY'S process, and these improved baby foods are being sold by your grocer—or, he can get them for you. Send his name and address to LIBBY'S.

Watch that Dandruff go —WITHOUT MASSAGE!

Most men will admit it. They loathe dandruff. They'd like to be rid of it. But treatments that call for long, tedious massage waste so much time that they are often forgotten, or deliberately neglected!

So, if you count your minutes, get after dandruff with *Danderine*. Its active formula does the work—saves your fingers; saves your time. Just use Danderine instead of water

every morning as you brush your hair. Danderine disposes of ugly loose dandruff in the only way possible—by dissolving it. You haven't wasted a single minute of time—yet almost from the start your scalp looks and feels cleaner, and your hair more lively.

Begin this easy habit tomorrow, and watch loose dandruff go. All drugstores have Danderine. Even the smaller bottle lasts a long time.

VANCOUVER GIRLS MOTOR-MINDED

IN VANCOUVER more than 100 girls in trim military uniform belong to War Aid Volunteer class, taking instructions in motor mechanics at assembly plant

CANADIAN WOMEN are specializing, but in England girls have to become jacks of all trades, to release men for services. Girl porter is ready for clean-up

IN ENGLAND, girls to the number of more than 2,000,000 are taking part in every kind of activity to relieve men for war duty. In Canada, so far, women's work has been confined more to sewing, knitting and learning men's trades such as motor mechanics. In Vancouver, a volunteer unit training in auto mechanics has adopted a semi-military uniform.

Once Mr. Alva Wright, 85-year-old resident of Thornhill, Ont., coughed so badly he thought every breath would be his last. But he does not cough any more. "I remember," he writes, "having a sudden attack as I was getting up. I coughed and choked and felt stifled." Then RAZ-MAH came with quick relief.

His coughing, choking and wheezing stopped in a few minutes. RAZ-MAH usually brings speedy relief, and steady treatment reduces frequency of attacks. Relief from \$1 worth—or money back.

HELP PROTECT YOUR HEALTH

**Add this Vitamin B
food supplement to
your daily diet!**

"Tonik" Wheat Germ is not a medicine—it is a valuable food supplement particularly rich in Vitamin B—a protective vitamin. It is easy and pleasant to take—simply mix with cereal, fruit juice or other daily foods.

Guard your health! Take "Tonik" regularly and serve it to your family. It is particularly good for growing children, as Vitamin B helps promote growth. THE INDIANS ARE COMING — WITH KUKRI KNIVES

IN THE LAST WAR the Gurkhas of Nepal, India, became famous for the dexterity with which they used their kukri knives. A somewhat similar knife has been issued to detachments of

the Royal Indian Army Service Corps Veterinarians, recently arrived in France. The weapons are intended for cutting pegs and so on, but are equally useful in hand-to-hand fighting
